

MOSHER MINISTRIES

Lance, Kristen, Silas, and Asher Mosher

— taking the soul-saving gospel to a lost and dying world —

The Moshers in the USA

We've already begun our final semester as Missionaries-in-Residence at Freed-Hardeman University! What's next? It will require your help.

It was an adventure going through the holiday season as Tennessee residents. A cold Christmas is still a novelty to us—especially to our boys. We've enjoyed some snow, some travel, and family time.

Studies

I continue studying with C, my friend from high school. He and I have grown extra close over the last few months. Unfortunately, sickness and emergencies at his work have kept us apart for several weeks, but we look forward to the next study. He has a heart for knowing Jesus and a will to obey.

We've been studying with B since September. She's always keen to learn more and comes with several questions each week. She's been going to Bible class and worship with us every Sunday for a couple of months. On December 16th, she was baptized into Christ.

One of my friends, Z, took my Personal Evangelism class at FHU last semester. He also enrolled as a student of our Make Disciples Training Program and completed the 10-week course with honors. He's putting his training to very good use. A few weeks ago, we assisted him with and witnessed the baptism of

one of his best friends. Z is now an instructor for Make Disciples Training Program and is co-teaching his first 10-week program.

One of my students from last semester whom I worked with was baptized last week into Christ. He's on fire for the Lord and is loving his time on campus, being surrounded by so many Christians.

A couple of my other Personal Evangelism students have contacted me over the last few weeks praising God for the baptisms of some of their close friends. 2 Timothy 2:2.

Preaching and Teaching

This semester at FHU I am teaching three courses: Acts of the Apostles, Personal Evangelism, and Area Missions Studies: New Zealand. Each course is unique, and I am loving every minute.

At Juno, I am still teaching on the Holy Spirit & Miracles and Doctrine on Sundays. I am in the middle of a sermon series called *Jesus' Shocking Teachings in the Sermon on the Mount*.

Last week was FHU's 86th annual Bible Lectureship. The Theme was *He Went About Doing Good: The Compassion of Christ in Luke*. Many of the lectures centered around that theme, but there were also many topical courses. I spoke on "Encountering Missions: Experiencing Missions in the Scriptures." [You can listen to it here](#). It was amazing to be on campus and visit with so many new people, as well as dozens of folks I hadn't seen in a decade.

The weekend after Lectureship, I spoke at FHU's annual Church Leadership Workshop. In addition to speaking on a panel, I presented a lesson on "Methods and Ministry to Revive Evangelism."

Lance Mosher Books

From January 19th through February 11th, I hosted a New Zealand landscape photography exhibit on FHU's campus. I called it *Sweeping Aotearoa*. Thirty-nine photos were featured. The reception was on February 1st. The exhibit was a prelude to one of the books I am working on: *Sweeping Aotearoa: A New Zealand Landscape Photographic Journey of Devotion, Prayer, and Journaling* (that's a working title). Lord willing, it will be completed and available by this time next year.

Conclusion

Lord willing, in three short months, we will be moving to Chalmette, Louisiana to our next work. We look forward to being with the church there. We will be doing almost the same things we were doing in New Zealand—preaching, teaching, evangelizing, and equipping.

B's baptism

D's baptism

FHU Lectureship

And we **will still need your help**. As we have been saying all along, this is not going to be a locally-paid position. So we are grateful that you are still involved in supporting us prayerfully and financially.

At the beginning of the year, our family caught the dreaded COVID-19 for the first time. It wasn't so bad for us. I was the worst, but my acute symptoms lasted for only about three days.

Silas has lost two teeth in the past month. He's feeling pretty proud of himself.

Asher, Silas, and I went into Grandma's attic a couple of weeks ago and retrieved a couple of my old guitars and my skateboard. Asher wants me to teach him how to skate. We cleaned up the guitars, and now Silas is taking lessons.

Asher is making more and more friends at preschool and in the church. He continues to impress his Bible teachers with his love and Bible knowledge.

Lord willing, this time next week, we will be in Chalmette, Louisiana. This is a pre-move trip to sort some housing things out and fellowship with the church.

Thank you for reading another one of our newsletters. God bless you!

Keep serving Him,

Lance Mosher
